DCT/I ICOA/1 5000	

Box No.	. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability
The que industria	stions whether the claimed invention appears to be novel, to involve an inventive step (to be non obvious), or to be ally applicable have not been examined in respect of
	the entire international application
\boxtimes	claims Nos. 4.6.7.9-11 and 21-25
	because: .
	the said international application, or the said claim Nos relate to the following subject matter which does not require an international preliminary examination (specify):
K-3	
\bowtie	the description, claims or drawings (indicate particular elements below) or said claims Nos. 4.6.7.9.10 and 21-25 are so unclear that no meaningful opinion could be formed (specify):
composit	, 6 and 7 depend on claim 1, which is drawn to an ester. However, the said claims contain limitation directed to further limit a ion. Thus, it is unclear if the invention is a composition or a compound. Since the independent claims is drawn to a compound, ear what is the composition that is being limited in the said claims, thus the said composition claims are unsearchable.
drawn to	, 10 and 11 depend on an independent claim 8, which is drawn to a method of preparation. Nonetheless, claims 9,10 and 11 are limit a product. Thus it is unclear if the invention is a compound or method or preparation. Therefore claims 9, 10, and 11 are nd unsearchable.
term cata	1-25 are directed to a composition nonetheless it is unclear what are the components of the said composition. For instance the lyst embraces multiple possibilities and it is unclear what can satisfy the limitations of the said composition. Since the nts of the said composition are not clearly defines the said composition is unsearchable.
	the claims, or said claims Nos are so inadequately supported by the description that no meaningful opinion could be formed.
	no international search report has been established for said claims Nos

	the nucleotide and/or amino acid sequence listing does not comply with the standard provided for in Annex C of the Administrative Instructions in that:
	the written form has not been furnished
	does not comply with the standard
	the computer readable form has not been furnished
	does not comply with the standard
	the tables related to the nucleotide and/or amino acid sequence listing, if in computer readable form only, do not comply with the technical requirements provided for in Annex C-bis of the Administrative Instructions.
